

RHODE ISLAND DEMOCRATS.

THEY DECLARE FOR CLEVELAND.

EPITHETS FREELY EXCHANGED BETWEEN THE FACTIONS AT THE STATE CONVENTION.

BY TELEGRAPH TO THE TRIBUNE.

Providence, R. I., March 2.—The Democratic factions fought in Rhode Island continuously from 11 o'clock to 12 o'clock to-night. It was the most disorderly and disgraceful convention ever held in the State. As between the Carroll-Brennan and Honey-McNally factions the victory was a divided one. In the nomination of William T. C. Wardwell, of Bristol, for Governor over David S. Baker, Jr., the Carroll-Brennan faction scored a victory. The vote stood: Wardwell, 127; Baker, 86. They were their only pronounced success. The Honeyites captured the other State offices, although not without a struggle. Wardwell was more because of his past record as a Democrat than because of the strength of his particular political sponsors. The fight over the nominations was tame compared with the struggle to prevent Mayor Samuel R. Honey, of Newport, from going to Chicago as a delegate. It was here that the deep-seated animosity between Brennan and Champlin on one side and Colonel Honey and James McNally on the other showed itself most conspicuously. The air was full of such epithets as "liar," "blackguard," "blackie," "scoundrel," "traitor," "Mugwump," "contemptible," etc. The greatest disorder prevailed, and Chairman Charles E. Gorman found difficulty in keeping the convention anywhere within bounds. James McNally, Democratic candidate for Mayor of Providence in 1890, demanded that Honey be sent as a delegate for the reason that he had furnished the sinews of war to run Democratic campaigns. While the vote was being taken Brennan and others asserted that delegates were stuffing the hat, and a new vote was taken, each delegate being obliged to come to the platform and deposit his ballot. Incidentally, Brennan declared that the vote for Attorney-General was stuffed in favor of Slocum. The result of the ballot between Honey and Senator Church was 140 to 53 in Honey's favor, and there was howling on the part of the Honeyites. The delegation to Chicago was made up without a single representative from Providence, greatly to the chagrin of the Honeyites in the Providence delegation. In this regard the Carroll-Brennan faction was outgeneraling the Carroll-Brennan faction. In this regard the Carroll-Brennan faction was outgeneraling the Carroll-Brennan faction. In this regard the Carroll-Brennan faction was outgeneraling the Carroll-Brennan faction.

The only place where there was perfect harmony was in the platform, which instructs the delegation for Cleveland, demands free raw material, artistically straddles the silver question by declaring against free coinage except upon an international agreement, and deals with various local questions. For Lieutenant-Governor, Charles F. Gorman, of Providence, was nominated. The Wardwell men placed Charles Acton Ives, of Newport, in counter nomination. Mr. Ives was repudiated by the Newport delegation, and in retorting Mayor Carroll, of Pawtucket, intimated that Newport had been traded for Senator Aldrich. This was hotly denied. The vote was: Gorman, 150; Ives, 30, and Baker, 7. Mr. Hefernan, of Woonsocket, was named for Secretary of State and was the only one of the State ticket to receive an unopposed nomination.

Ex-Attorney-General Ziba O. Slocum was nominated for that office again. His opponents nominated Augustus S. Miller, of Providence, who was badly beaten, receiving only 40 votes. John J. Carroll, of Pawtucket, was elected as a delegate to Chicago. The proposition to nominate a Senator was abandoned.

THE KORANIAN PROPHET GOES TO CHICAGO. San Francisco, March 2 (Special).—The Koranian Mesiah has shaken the mud of San Francisco from his feet and left the city for good, going to Chicago. He started to-day for Los Angeles, after an adieu farewell with his favorite disciples, whom he kissed withunction, especially the pretty girls among them. At Los Angeles he proposes to gather a number of believers and take them to Chicago. Forty-five members in the Koranian here will be transported at the expense of Mrs. Knight, the latest and richest addition to the community. She is a cousin of Colonel Frederick Crocker, the railroad millionaire, and a sister of Lester Brothers, Virginia City, bankers, who held \$15,000 in trust for their sister. When they learned that she contemplated joining Teed's party, they tried to show that she was insane. They failed, and the money will probably all be absorbed by the Koranian. Teed predicts that he will be killed by the Koranian mob of husbands, whose wives he has lured to join the community, and that, after his death, he will appear in astral form.

A CONVERT TO METHODISM.

Springfield, Ill., March 2.—A sensation has been caused here by the Rev. J. O. Babn, of the Episcopal Church, who has been in charge of the Gillett Memorial Chapel and tutor in ex-governor Oglesby's family. He went forward last night at the revival meeting conducted at the first Methodist Church by Evangelist Miller, and was admitted on probation to the Methodist faith. He at once sent a letter to Bishop Seymour announcing his withdrawal from the Episcopal Church and asking to be deemed a convert to the Methodist faith. He added that he thought the Methodist communion more congenial.

PASSENGERS INJURED ON A WRECKED TRAIN.

Grafton, W. Va., March 2.—The engine of the passenger train for Parkersburg, which was attached to a part of the Baltimore afternoon train of yesterday for Cincinnati, broke the rear driving axle early this morning, about one mile east of Bridgeport. Three coaches, a deeper lounge and the baggage car were badly wrecked. Several of the passengers were injured, two seriously. All were sent back to Grafton and later forwarded to their destination, except the two seriously injured, who remain at Grafton. Among those slightly injured were J. W. Gerville, of New York, badly bruised, and Mrs. Gerville, out on the head and badly bruised.

COLONEL LAMONT GETTING BETTER.

Jacksonville, Fla., March 2 (Special).—Numerous telegrams have been received here today stating that rumors were about to the effect that Colonel Daniel S. Lamont, of New York, was lying dangerously ill somewhere in this State and making anxious inquiries about his condition. Colonel Lamont has been at the St. James Hotel, in this city, since last Friday. He is far from well getting over an attack of grip, but goes about a little every day. He is accompanied by his friend, Dr. H. C. Hendricks, of Central New York, who says that the Colonel is improving gradually.

JUDGMENT AGAINST TILDEN'S NEPHEWS.

Transcript of a judgment from Columbia County was filed at the County Clerk's office yesterday against Samuel J. Tilden, Jr., and George H. Tilden, nephews of Governor S. J. Tilden, in favor of the National Bank of Kinderhook, for \$125,001. The judgment was obtained on October 13, 1890, but was not filed in this city at that time. The Tildens are in business at New-Lebanon, N. Y., where they manufacture extracts and chemicals.

SCHOOL FEVER IN A BOARDING SCHOOL.

Norwalk, Conn., March 2.—Scarlet fever has broken out in Miss Baird's Young Ladies' Seminary in this city and the school is closed. Three of the pupils are down with the disease, but the others, numbering about fifty, were sent home to-day.

SECRETARY FOSTER IN LONDON.

HE HAD A GOOD PASSAGE TO SOUTHAMPTON.

HIS TRIP SOLELY FOR THE BENEFIT OF HIS HEALTH—IMMIGRATION REGULATIONS.

London, March 2.—Charles Foster, Secretary of the United States Treasury, arrived in Southampton on the North German Lloyd steamer Spree this morning. Upon landing at that port he received a bouquet, which, a dispatch says, was the gift of Mrs. Harrison, Robert T. Lincoln, the United States Minister, and the staff of the Legation were at the Waterloo station in London to receive Mr. Foster when the special steamer train arrived. The Secretary, however, did not travel by the special train, but came on a train that left Southampton at a later hour. Mr. Lincoln, Henry White, first secretary of the Legation, and other members of the staff, and Consul-General New subsequently visited Mr. Foster. A prolonged interview was held between Mr. Foster and Mr. Lincoln.

In an interview with a representative of the Associated Press Mr. Foster said that the steamer had a splendid passage from New-York. He was not at all seasick and already felt much benefited by his trip. His object in coming to Europe is to regain his health. He has no intention of seeing Mr. Goshen or any one else in regard to silver or immigration. I shall sail on my return to the United States next Wednesday. I may go to Paris on Friday.

Regarding the new immigration regulations, Mr. Foster said: "I quite agree with the objections of the British steamship-owners that it is impracticable to find a \$500,000 bond. That was not my proposal. My object in recommending more air space on the steamers and \$1 head money was to prevent the overcrowding of tramp steamers, and induce the introduction of a better class of immigrants into the United States."

"But the steamship-owners say the \$1 head money favors increased passage rates?" "Quite so," responded Mr. Foster, "and increased rates mean a better class of immigrants to the exclusion of the poorer element. We have no trouble with the British lines, nor with the General Transatlantic and North German Lloyd companies. Their companies conduct in a very proper manner. The only trouble is with the Italian lines. The enforcing of added air space and higher rates ought to limit the tramp steamer traffic. If it does, the class of immigrants which the United States is open to receive will not be injured."

"Who will be the Republican candidate for the Presidency?" Mr. Foster was asked.

"Mr. Harrison," he responded.

"And what is the Democratic situation?"

"Bryan," was the sensational reply.

When asked if he intended to stay long in England, Mr. Foster said: "Not if this weather continues. I had an attack of the grip, but the voyage set me up. I was going to Bremen, but ex-Secretary General Hays, who accompanied me, thought it better to stay in England, so we got off at Southampton. In any case my stay here will be short."

Mr. Foster took a walk in the park near his hotel, near a big fire in his bedroom with Dr. Hamilton. The weather outside was bitter cold. A strong northeast wind was blowing and snow was falling.

FOR DEEPENING CANADIAN CANALS.

Ottawa, Ont., March 2.—Mr. Doolan has given notice in the House of Commons of his intention to introduce the following resolution: "Resolved, That the new United States Canal at South St. Marie, is being constructed to a depth of eighteen feet, and whereas it is proposed in that country to deepen that canal to a depth of twenty feet, and whereas the proposed increase in depth has already been made at the mouth of the Detroit River, and whereas the Canadian Government has agreed to deepen the St. Lawrence and other canals on the St. Lawrence should be deepened to twenty feet."

Mr. Doolan has given notice of a bill relative to sailing and wrecking. This is a measure of reciprocity in wrecking with the United States.

Boston, March 2.—"The Journal" correspondent of Ottawa, learns that, as one of the important results of the recent conference at Washington, the Dominion authorities have yielded to the views hitherto held by the United States Government upon the alleged delay in the completion of the Canadian Government in the use of the Dominion canals, and states that the objectionable regulations enforced by the Dominion authorities will not be reimposed this season.

AN EARLY DISSOLUTION PROBABLE IN GREECE.

Athens, March 2.—The Chamber was prorogued to-day until March 6. An early dissolution is considered certain in view of the vote of the Chamber yesterday. The Ministry adopted by the Chamber yesterday. While conversing today with a number of politicians the King said that on his request, Mr. Delanais (until yesterday the Premier) undertook to submit radical measures to balance the budget, but that Delanais's indecision regarding the tobacco monopoly proved that he failed to appreciate the gravity of the situation and compelled the demand for his resignation. The King denied that he had any intention of proposing to her resources, of Greece were exhausted, there was sufficient for all needs in the Treasury. He gave assurance that he did not desire to disturb the peace of the country.

MINISTER HIRSCH'S PROTEST.

London, March 2.—The Constantinople correspondent of "The News" says: Mr. Hirsch, the American Minister, has received a reply to his protest to the Porte against the decree compelling foreign schools, on pain of losing their privileges, to obtain official permits. The reply is in effect, that the British Embassy has already accepted the decree. Immediate attention should be called to this statement, because, if it is true, the British Embassy must have failed to weigh the meaning of the document. Americans here believe that Mr. Hirsch's vigorous protest will lead to a cautious execution of the decree, but they completely misunderstand the attitude of the Porte with a view to defeat Mr. Hirsch.

POLICY OF THE NEW FRENCH CABINET.

Paris, March 2.—According to a forecast of the declaration of policy of the new Cabinet, to be read in the Chamber of Deputies to-morrow, the Ministry will appeal to Republicans to refrain from barren and irritating questions, and to concentrate their efforts on home reforms; will announce the maintenance of the Concordat, with the application of organic statutes sufficient to insure the unity of the State; will declare their intention to uphold the existing commercial treaties with foreign nations; and, in conclusion, will declare in favor of the development of the army and the continuance of the diplomacy which has gained allies for France, thus assuring peace.

WHY A GERMAN PAPER IS BEING PROSECUTED.

Berlin, March 2.—The "Colone Gazette" is being prosecuted for expressing pain and regret that the Emperor's splendid inheritance is melting away under caprices of the hour, and declaring that citizens ought to unite and drive from office the Emperor's dangerous advisers and give him a chance to read the mind of the people.

BIG RAILWAY ACCIDENT IN BRAZIL.

Rio Janeiro, via Panama, Feb. 25.—There was a serious collision of trains on the evening of February 23 on the San Francisco and Recife Railway near Cuyabana station, more than fifty persons, it is reported, being killed and a large number wounded.

ENGLISH WOMEN AND THE CHICAGO FAIR.

London, March 2.—A meeting to promote an exhibition of English women's work at the Chicago Fair, held in London to-day. Princess Christian presided, and the Marchioness of Salisbury, the Countess of Aberdeen and a host of other women of high rank were present.

FOR AN INTERNATIONAL CURRENCY STANDARD.

London, March 2.—At a meeting of the Hometable League to-day, the views of the Government and Parliament were set forth in regard to the proposed international currency standard. The Government and Parliament were set forth in regard to the proposed international currency standard. The Government and Parliament were set forth in regard to the proposed international currency standard.

THE EVICTED TENANTS' BILL.

London, March 2.—In the House of Commons to-day James O'Kelly, member for North Roscommon, moved the second reading of the Evicted Tenants' Bill, which gives a local court power to restore evicted tenants to their holdings and to arrange and enforce terms of settlement where landlords and tenants are unable to agree. The motion was rejected, the vote standing 229 to 174.

THE LABOR TROUBLES IN GERMANY.

Berlin, March 2.—A large number of unemployed workmen of Hanover marched in procession to the municipal canal works in that city to-day and demanded the discharge of all the Polish laborers. They

OVER A MILLION WILL BE IDLE.

MAGNITUDE OF THE COMING COAL-MINERS' STRIKE IN GREAT BRITAIN.

London, March 2.—As the time approaches for the beginning of the strike of the coal miners, who on March 12 will quit work for two weeks, with the object of compelling such an advance in the price of coal as will prevent the mine-owners from reducing wages, the effects of the movement can be more readily gauged. It would be an impossible task approximately to estimate the number of persons who will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.

It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc. It is certain that over 1,000,000 employees will be thrown out of work by the closing of mills, ironworks, factories, etc.
